WHERE CAN YOU FIND A

*virtually unbreakable*

MUSIC STAND?

What every school needs is an unbreakable stand, which nests for compact storage and which has no knobs to fiddle with or get lost. The performer delivers this and more, with rubber feet to protect the floor, an extra lip on the music tray for pencils and erasers and a base designed to enable stands to nest next to each other for compact storage

THE  
*Performer*  
STAND

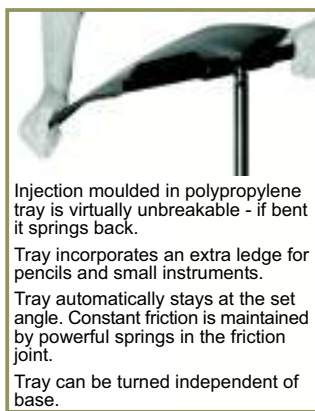

THE  
*Performer*  
STAND

Stands nest for compact storage  
Closed height of 72cm is almost 25% less than comparable stands, so you can store it where other stands won't fit. You can store Performer stands on 3 layers of shelves in an average height room.

Trolley holds 18 stands

Injection moulded in polypropylene tray is virtually unbreakable - if bent it springs back.

Tray incorporates an extra ledge for pencils and small instruments.

Tray automatically stays at the set angle. Constant friction is maintained by powerful springs in the friction joint.

Tray can be turned independent of base.

Tubular steel base for strength and rigidity without excess weight.

Rubber feet preserve your floor and prevent clatter.

A full range of mains and battery powered lights is available for the Performer stand. See separate leaflet.
